

BEN KASONGO MUKEBO

FULL-STACK WEB DEVELOPER

Full-stack software developer with a background in engineering and 4+ years of industry experience. I specialize in React, Nextjs, Ruby on Rails, and React Native. A skilled mentor with the proven ability to motivate, educate, and manage a team of 10+ developers to build software programs and effectively track changes.

EXPERIENCE

FIDBA GRAPHICS, Remote, and Full-time

Front End Developer | February 2021 - May 2023

- Designed +4 professional websites for African companies, which positively impacted their businesses by generating a 20% increase in online leads and doubling their online sales.

MICROVERSE, Remote, and Part-time

Code Reviewer | October 2021 - February 2024

- Complete 20+ weekly reviews for students from all over the world who are working on projects in CSS, ReactJS, and Ruby.
- Provide suggestions on maintaining app development best practices, professionalism, and compliance with QA guidelines.

NEUTRAL, Remote, and Part-time

Back End Developer | March 2022 - Present

- Designed and developed the Neutra platform from the ground up, utilizing cutting-edge technologies and optimized processes, resulting in a 14% increase in website loading speed to deliver a high-performing and scalable web development experience.
- Created custom APIs and optimized database performance for a smooth experience, resulting in 19% less page load time.

JUUBIX, Remote, and Internship

Full-stack / Sublead Backend Engineer | April 2023 - November 2023

- Propose improvements to code organization to improve code quality and overall performance of the application.
- Build smart contracts with Rust package manager (Cargo)

VAURSE, Remote, and Full-time

Front End Developer | May 2023 - Present

- Contributing to the development of our highly anticipated first production set and launch in Ghana and the UAE in March 2023.
